**4750 Longley Lane, Suite 209 • Reno, NV 89502-5982 • 800-248-2882**

July 2017

To our valued customers:

First, I would like to personally thank each and every Channel Publishing customer who has purchased and enjoyed our ICD-9-CM and ICD-10-CM/PCS coding products and services over these past 31 years.

I've been coding since the mid 1970s and have experienced the transition from ICD-8 (and H-ICDA-8) to ICD-9-CM and the implementation of DRGs, so I know what it's like for coders to make these difficult transitions. Even though the transition has already happened, training of new staff is still important.

That's why I'm so pleased to offer the high-quality ICD-10 products and services we've developed at very affordable prices. As I said when I taught Channel's "Preparing for ICD-10" coding seminars back in 2000, "you're going to have a whole sea of printed and multimedia ICD-10 products and services to choose from, and you're going to have to choose which products are going to be best suited for you." I strongly believe that the ICD-10 products and services we've developed will make this transition easier for you, both from a learning point of view and a budget point of view. And we've organized all these products and training materials into logical steps to guide you through your ICD-10 training.

On the following pages you will find information and pricing on:

- Learning ICD-10-CM & ICD-10-PCS "Seminar-In-A-Box" training programs (Step 1)
  - Professional Version (teaching others)
  - Individual Version (teaching yourself)
- *2018 Mastering ICD-10-CM Exercise Book* (Step 2)
- *2018 Mastering ICD-10-PCS Exercise Book* (Step 2)
- *2018 Mastering the ICD-10-CM Guidelines Exercise Book* (Step 3)
- *2018 Mastering the ICD-10-PCS Guidelines Exercise Book* (Step 3)

For pricing and sample pages of our ICD-10 code books, please click on the ICD-10 Code Books tab.

Wishing you the best with your ICD-10 training,

Craig D. Puckett,  
President and Publisher

## Channel Publishing Presents Our Most *INNOVATIVE* ICD-10 Product

# *Seminar-In-A-Box*

### STEP 1

Channel Publishing's "Seminar-In-A-Box" programs (Step 1) are designed for a wide variety of facilities, consultants, and coders who need quality, affordable ICD-10 training in a flexible format using Channel's proven seminar materials and code books. The "Seminar-In-A-Box" programs include:

#### • TWO PROGRAMS:

- **Learning ICD-10-CM**  
(Equivalent to a 1-2 day seminar/workshop)
- **Learning ICD-10-PCS**  
(Equivalent to a 2-3 day seminar/workshop)

#### • TWO VERSIONS:

##### • PROFESSIONAL VERSION (Teach Others)

- **PowerPoint Slide Presentation**
  - Includes complete set of Channel's PowerPoint seminar slides
  - Option to add slides of your own design
  - Additional instructional slides, examples, or exercises
  - Slides to identify your organization and program structure
- **Instructor's Manual** — A complete Instructor's Manual in an easy-to-read and use binder that provides a detailed explanation on each teaching point
- **Package discounts** — Discounts for purchasing packages of code books and seminar workbooks for re-sale or use by your attendees
- **Seminar DVD set** — A DVD of a seminar by AHIMA - Approved ICD-10-CM/PCS Trainers Craig Puckett and Jo Ann Jones designed for instructor preparation and review
- **Seminar Workbook** — The Seminar Workbook includes a printed version of the slides and exercises to be completed by attendees
- **The Educational Annotation of ICD-10- (CM) (PCS) code book (SoftCover, Spiral, or Annual)**
- **CEU Certificate Files** (Microsoft Word files)

##### • INDIVIDUAL VERSION (Teach Yourself)

- **Seminar DVD set** — A DVD of a seminar by AHIMA - Approved ICD-10-CM/PCS Trainers Craig Puckett and Jo Ann Jones designed to be viewed as if attending a live seminar (allows individuals to learn at their own pace and view the DVD, or certain segments, as often as needed)
- **Seminar Workbook** — The Seminar Workbook includes a printed version of the slides and exercises to be completed and answers reviewed on the DVD
- **The Educational Annotation of ICD-10- (CM) (PCS) code book (SoftCover, Spiral, or Annual)**
- **CEU Certificate** - (12 CEUs CM) & (20 CEUs PCS)

# Affordable, Quality ICD-10 Training!!!

# Seminar-In-A-Box

Channel Publishing's *Learning ICD-10-CM & Learning ICD-10-PCS Seminar-In-A-Box* programs (Step 1) are designed to train coders in a wide variety of settings:

## Professional Version (Teaching others):

- **Facilities** (hospitals, clinics, insurance companies, health care industry businesses, etc.) that plan to train their own coders in-house and at their own pace and timing and/or to offer training to physicians or other groups associated with their facility
- **Groups** (coding roundtables, associations, etc.) who plan to train their members within the usual time frame of the group meetings
- **Consultants** who need an affordable set of ICD-10 training materials to train at their client facilities or who plan to offer local seminars in their areas

## Individual Version (Teaching yourself):

- **Individuals** who would like an affordable ICD-10 training product alternative where they can teach themselves at their own pace, and review the material as often as needed

## Here's what you'll learn with these Seminar-In-A-Box programs:

- All the different sections and sub-sections of each code book, including:
  - Introduction, index, tabular, and appendices
  - Conventions, formats, structures, abbreviations, and keys
  - Unique sub-sections of each code book (neoplasm table, root operations, and body part tables, etc.)
  - Coding Guidelines
- Similarities and differences to ICD-9-CM
- New features added in ICD-10-CM (laterality, two types of Excludes)
- Completely new structure for procedures (table structure, rows and columns, multiaxial)
- Exercises (with answers) to re-inforce new concept/book sections

## Who should purchase a Seminar-In-A-Box program:

- Coders and managers
- Consultants
- HIM directors
- Students
- Health care related positions

## CEU information:

- 12 CEUs ICD-10-CM, 20 CEUs ICD-10-PCS (AHIMA guidelines)
- Other organization members must contact their respective organization

## Advantages of using Learning ICD-10 Seminar-In-A-Box programs :

- Flexibility to train at your own pace and on your schedule
- Quality from a known ICD-9/ICD-10 publisher
- No license fee
- Affordable

**Craig Puckett, President  
Channel Publishing, Ltd.**

**AHIMA - Approved  
ICD-10-CM/PCS Trainer**

Craig has been coding since the mid 1970s and has experienced the transition from ICD-8 to ICD-9-CM and the implementation of DRGs, so he knows what it's like for coders to make these challenging transitions. That is why he has designed and developed Channel's innovative suite of ICD-10 products and services to help coders make this difficult transition from ICD-9-CM to ICD-10.

Craig's experience in the health information field includes contract coding, consulting, and authoring of *The Educational Annotation of ICD-9-CM (& ICD-10-CM/PCS)*, the first code book to include medical definitions, illustrations, and anatomy and physiology reviews. He is an experienced instructor who has created video workshops for ICD-9-CM and ICD-10, and seminars for both ICD-10-CM and ICD-10-PCS, including the very popular *Preparing for ICD-10* seminars held over 10 years ago.

**Jo Ann Jones, RHIA, CCS  
Manager, Coding Services**

**AHIMA - Approved  
ICD-10-CM/PCS Trainer**

Jo Ann has over 30 years of experience in the HIM profession. She joined Channel Publishing's Coding Services in 2006 and currently serves as Manager of Coding Services. She has contributed to the development of Channel's *Mastering ICD-10-CM/PCS Guidelines Exercise Books* and has contributed articles to *Clinotes*, Channel's companion reference to ICD-9-CM and ICD-10.

Jo Ann has enjoyed her role as a HIM instructor at the Career College of Northern Nevada, preparing and educating coders for ICD-10-CM/PCS.

An active member of NvHIMA and the local association NNvHIMA, Jo Ann served as President of NvHIMA from 2007-2008. Currently, she is the Coding Roundtable Coordinator and Co-Chair of the ICD-10 Task Force Committee.

## Affordable, Quality ICD-10 Training!!!

# Seminar-In-A-Box

## ICD-10-CM Seminar Outline

- Overview of seminar materials and instruction (including practice exercises)
- Implementation and “freezing” update
- Understanding the ICD-10-CM code book
  - ICD-9-CM, similarities and differences
  - Introduction, conventions, structure, format
  - Alphabetic index
  - Neoplasm and Drugs & Chemical tables
  - Coding Guidelines
  - Clinical Modifications (restructuring axes, OB ...)
  - New features (laterality, Excludes 1 & 2 ...)
- Chapter-by-chapter explanation, including unique sections/codes, and exercises
  - Chapter 1 – Infectious and parasitic diseases
  - Chapter 2 – Neoplasms
  - Chapter 3 – Blood and blood-forming organs and immune mechanism
  - Chapter 4 – Endocrine, nutritional and metabolic
  - Chapter 5 – Mental, behavioral and neurodevelopmental disorders
  - Chapter 6 – Nervous system
  - Chapter 7 – Eye and adnexa
  - Chapter 8 – Ear and mastoid process
  - Chapter 9 – Circulatory system
  - Chapter 10 – Respiratory system
  - Chapter 11 – Digestive system
  - Chapter 12 – Skin and subcutaneous tissue
  - Chapter 13 – Musculoskeletal system and connective tissues
  - Chapter 14 – Genitourinary system
  - Chapter 15 – Pregnancy, childbirth and puerperium
  - Chapter 16 – Perinatal period
  - Chapter 17 – Congenital malformations and chromosomal abnormalities
  - Chapter 18 – Symptoms, signs and abnormal clinical and laboratory findings
  - Chapter 19 – Injury and poisoning
  - Chapter 20 – External causes of morbidity
  - Chapter 21 – Factors influencing health status and contact with health services
- Developing an ongoing self-training plan to keep you on schedule and best prepared for implementation
- Tips and opportunities for keeping your new ICD-10-CM knowledge sharp and up-to-date

## ICD-10-PCS Seminar Outline

- Overview of seminar materials and instruction (including practice exercises)
- Implementation and “freezing” update
- Understanding the ICD-10-PCS code book
  - Similarities and differences to ICD-9-CM
  - Introduction, conventions
  - Tabular List Tables format & structure
  - Coding Guidelines
  - Alphabetic index
  - Appendices
- Medical & Surgical Section – Root Operation explanation of similar procedure groups and exercises
  - Root Operations That Take Out Some or All of a Body Part
  - Root Operations That Take Out Solids/Fluids/Gases From a Body Part
  - Root Operations That Put In/Put Back or Move Some/All of a Body Part
  - Root Operations Involving Cutting or Separation Only
  - Root Operations That Alter the Diameter/Route of a Tubular Body Part
  - Root Operations That Always Involve a Device
  - Root Operations Involving Examination Only
  - Root Operations That Define Other Repairs
  - Root Operations That Define Other Objectives
- Medical & Surgical Section – Explanation of the 31 Body Systems sections, including the unique root operations found in each and differences
- Medical/Surgical Related Sections – Explanation of the med/surg related sections (Obstetrics, Placement, Administration, etc.) and exercises
- Ancillary Sections – Explanation of the non-med/surg related sections (Imaging, Radiation Therapy, Mental Health, etc.) and exercises
- Developing an ongoing self-training plan to keep you on schedule and best prepared for implementation
- Tips and opportunities for keeping your new ICD-10-CM knowledge sharp and up-to-date

***Affordable, Quality ICD-10 Training!!!***

# INSTRUCTOR'S MANUAL SAMPLE PAGE

## "PROFESSIONAL VERSION SEMINAR-IN-A-BOX"

**Slide Type:** Identifies the type of slide for the instructor. Helps instruction flow smoothly and in the case below "Preview" informs the instructor that it's not necessary to spend a lot time discussing the subject here because the following slides contain the detailed information.

**Slide Focus:** Describes the basic purpose of the slide.

**Slide Number:** Matches the Slide Number on the projected slide to assist the instructor in keeping his/her instructor manual in sync with the slide show. Also allows an instructor to quickly move to the proper slide.

**Slide Title Detail Explanation:** Detailed wording about the slide's focus.

**OTHER INFORMATION**

- Designed for many types of users, including an individual who may not have access to other instruction. The information is so complete that the individual could literally teach themselves.
- Hundreds of slides in each program. The information is broken down into small, easy-to-comprehend units for the attendees and easy-to-remember units for the instructors. The instructor will be easily reminded of what to teach about each slide.
- All pertinent slides are printed in the workbooks so attendees can spend their time learning versus writing.
- Knowledge reinforcing exercises at the end of each section.
- The programs can be taught in a variety of time formats (all-day, half-day, or even an hour at a time over a period of time).
- The DVDs of the live seminar are provided for the instructor to review and practice the presentation.

### LEARNING ICD-10-CM – SLIDE 23

**Slide Title:** MAJOR CLINICAL MODIFICATIONS

**Slide Type:** Preview

**Slide Focus:** Preview explanation of upcoming slides

**Slide Title Detail Explanation**

- This slide previews a few of the more important Clinical Modifications ("CM") that NCHS made to ICD-10 for coding and data needs in the United States.

**Slide Detail Explanation**

- "Addition of seventh digit"
- Unlike ICD-10, ICD-10-CM has added an additional seventh digit to some codes to capture more detail without changing the existing meaning and structure of the previous six digits
- The next few slides will discuss this in more detail with plenty of examples

**Slide Detail Explanation**

- "Laterality"
- This is a new concept that has greatly increased the number of codes
- Right, Left, & Bilateral (e.g. fracture of right ulna)

**Slide Detail Explanation**

- "OB trimester codes"
- Coding of First, Second, and Third trimesters *INSTEAD OF* "Episode of care" as in ICD-9-CM (delivered)

**INSTRUCTOR'S PERSONAL-TOUCH NOTES**

(Additional notes, examples, tips, etc.)

**3-Hole Punched:** The Instructor's Manual is contained in a 3-ring notebook. This allows easy page turning and makes it easy to add additional pages as needed.

**Slide Detail Explanation:** Details information to share about each bullet and lets the instructor know other important additional information (e.g. more detailed slides and discussion to follow).

### 2018 Mastering ICD-10-CM Exercise Book

ISBN:9781933053-92-9

Channel Publishing has developed this ICD-10-CM training exercise book to further your knowledge and understanding of the new code book. The exercises are designed to give you experience with, and confidence in, every chapter and section of the code book. The quizzes and tests will allow you an opportunity to test your knowledge, prove your competence, and receive additional CEU credits.

- Over 3,000 diagnoses practice exercises
- Answer key for all practice exercises
- Part 1 – Chapter-By-Chapter exercises
- Part 2 – Random Chapter exercises
- Quizzes at the end of each section (Quizzes can be mailed in for grading and CEU credit certificate – additional fee applies)
- A Final Test (Final Test can be mailed in for grading and CEU credit certificate – additional fee applies)
